

Strategic Plan 2026

Mission:

Evidence-based infection prevention across the continuum of practice.

Vision:

Develop competent infection preventionists through educational and networking opportunities.

Contribute to the evidence base of practice through facilitating collaborative efforts.

Advocate for infection prevention issues at the state and national level.

Professional Development

Goal: Encourage our members to attain and maintain the Certified in Infection Control and Epidemiology (CIC®) designation.

Objectives:

- Promote the value of the (CIC®) designation through social media, membership recruitment and new member orientation.
- Develop a program to connect new members of our profession with experienced members to provide Mentoring and ongoing Professional Development.

Education

Goal: Expand programming and educational resources to develop competent Infection Prevention Professionals.

Objectives:

- Develop a monthly Continuing Education Webinar Series that aligns with requirements and topics for CIC® certification and recertification.
- Expand the topics presented at the annual conference to include evidence-based infection prevention across the continuum of practice.

Advocacy

Goal: Be recognized as the leading voice in Florida for Infection Control and Prevention Issues.

Objectives:

- Provide information to members about important regulatory and legislative activity impacting the profession of Infection Prevention.
- Develop an annual Advocacy Day to remind state legislators that our members have expertise to contribute to proposed legislation and regulatory public policy.
